## Storming the South!

This week we give a special mention to drug education presenter **Gary Byrne**.

A consistent and industrious bringer of the truth about drugs to the nation's children, Gary has in his distinguished career presented the truth about drugs to enough people to fill Wembley Stadium and only last week gave talks to over 1700 people!

The author of the "The Drug Attraction" and based in Sussex, Gary leads by example, epitomising what can be achieved and the fun that can be had from this worthwhile and fulfilling career at the very forefront of the effort to free the UK from drugs.
